### CORN HOLE GAME

Cornhole matches are played with two sets of bags and two platforms. There are four bags to a set. Each set should be identifiable from the other; different colors work well. Bags should weigh 14 to 16 ounces. Each platform is 2 ft x 4 ft, with a 6-inch hole centered 9 inches from the top. Each platform should be angled, where the top is 12" higher than the bottom. A regular court places the holes 33 ft apart, or 27 ft between the bottoms of the platforms. Shorter distances can be used when younger players are participating or there is not sufficient room. Bags are tossed from the pitcher's box which is the rectangular area directly to the left or right of a platform. The bottom of the platform forms the foul line. Players may not step over the foul line while pitching.
